Guidelines for Posters

Please reference the following poster instructions to prepare your poster:

The poster must be maximum 100 cm vertical and 80 cm horizontal. Do not exceed the size of the poster board.

You will find the number of your poster board on the board where the poster must be attached. Use pushpins only to attach material. Pay attention: nor write or paint on the poster boards.

Please plan to set up your poster on your assigned board on Tuesday, June 7th, between 12:00 – 14:00 and remove it on June 10th after lunch. Posters should be on display all day while the exhibit hall is open (h 8:30 – h 18:30). IRRIV cannot be responsible for posters that are not removed by the specified poster dismantling times.

Authors are encouraged to be near their posters during breaks.

Your poster board area will be in the Pav. 7

Tips on Creating Posters

1. Keep text and legends short and to the point as much as possible.

2. Remember that all material must be readable from distances of 2 meters or more.

3. Write your presentation as concisely as possible, keeping the number of pieces to a minimum. Charts, drawings, and illustrations should be similar to those you would otherwise use in making slides and, if anything, more heavily drawn.

4. It helps the viewer a great deal, if you can indicate (by numbers, letters or arrows) a preferred sequence that should be followed in studying your poster.

5. Your poster should be self-explanatory so that you are free to supplement the information and discuss particular points raised by inquiry during the poster session.

6. It is suggested that you include on your poster a name, address and phone number

VERY IMPORTANT: the first week of May 2016 the Scientific Committee will select abstracts for a possible oral presentation during the Satellite Joined Session Italian Society of Nephrology and IRRIV. If your abstract will be accepted you will receive an email confirmation.

At least one of the authors of your poster must be regularly registered at the Congress
