Matching the patient with the cure
Extracorporeal therapies in septic shock
The case of Polymyxin-B hemoperfusion

_Palladio Room_
June 9th 2015
17.00 - 18.15

Chairmen: C. Ronco – J. Kellum

Biomarkers, mediators and toxins
M. De Cal (Vicenza)

Extracorporeal therapies in septic shock: state of the art
J. Kellum (Pittsburgh)

Polymyxin-B hemoperfusion in Japanese experience
K. Doi (Tokyo)

Polymyxin-B hemoperfusion in European experience
C. Ronco (Vicenza)

Discussion

“It’s far more important to know what person the disease has than what disease the person has.”
Ippocrates
