COURSE PRESENTATION

We made it! We reached the 40th anniversary of the International Vicenza Course on AKI and CRRT. It is our intention to organize a memorable event in line with our tradition but also featuring some innovation. The pandemic and the changes occurred in the world in the last two years made us think of new pathways to offer innovative and effective education through our well-established course. On one side, we want to go back to the origins creating a true educational course in presence making the interaction with the faculty intense, productive and really useful for the audience. For this reason, we plan the event in presence with all faculty members physically attending the sessions and a limited lucky group of participants who will register for full physical attendance. On the other side, we need to meet the expectations and needs of several members of the scientific community, doctors and nurses, that are unable to travel to Italy and therefore can only attend the meeting remotely. Thus, the structure of the program will consist in a series of morning sessions (in presence only) and a series of online scientific sessions in the afternoon. In presence morning sessions are reserved to a restricted number of attendees who will travel to Vicenza and register for the full meeting (closed number, first come first serve until available space is filled and closed number is reached). These sessions are particularly designed to enable the attendees to deeply interact with the faculty and to explore in depth the topic of the lectures. Afternoon sessions will be designed to create live executive summaries by the same faculty members of the formal lectures and discussion held in the morning, bringing to the vast virtual audience the essence of the concepts and the scientific content. In every session, gender equality for the faculty is guaranteed. Given the hybrid nature of the meeting and the double educational mode offered, the registration fee will be different for the attendees registering in the two modalities (in presence = closed number, virtual mode = unlimited number of attendees). The scientific program will be integrated by industry sponsored symposia, meet the expert sessions and short presentations. As usual, the content of the presentations and the recording of symposia and scientific sessions will be made available on demand on the IRRIV web site. The course will take place in the center of the city of Vicenza inside an historical ancient building. We feel that, given the current circumstances we have come up with the best compromise possible to adequately celebrate 40 years of science and education in Vicenza and to render the latest research and information accessible to everyone who wish to attend our traditional course. Attending in presence will be an unforgettable experience but attending virtually will be rewarding as well in terms of gathering the most advanced information and knowledge in the field of acute kidney injury, sepsis, CRRT for renal and non renal indications and blood purification technology at large. Great Location!! Great Scientific Content!! Outstanding Faculty in presence!! Great Event!!

SCIENTIFIC COMMITTEE

Scientific Coordinator

DR. PROF. CLAUDIO RONCO
(Italy)

Senior Lecturer - Università di Padova
Scientific Director Foundation IRRIV
International Renal Research Institute
San Bortolo Hospital - Vicenza, Italy

Members

DR. PROF. RINALDO BELLOMO
(Australia)

Professor of Intensive Care,
The University of Melbourne
Professor of Medicine, Monash University
Honorary Professor of Critical Care Medicine,
University of New South Wales
Honorary Fellow,
Howard Florey Institute of Physiology
NHMRC Practitioner Fellow and Co-director
ANZ Intensive Care Research Centre
Editor-in-Chief, Critical Care & Resuscitation
Director of Intensive Care Research,
Austin Hospital
Director of Data Analytics Research and
Evaluation (DARE) Centre
Member of Executive, Department of Critical
Care, The University of Melbourne
Senior Research Advisor,
Royal Melbourne Hospital
Staff Specialist in Intensive Care Austin Hospital
& Royal Melbourne Hospital
& Warringal Private Hospital

DR. PROF. ZACCARIA RICCI
(Italy)

Associate Professor
Director of Anesthesiology and Intensive Care
Unit
Meyer Children's Hospital Florence, Italy
Department of Health Science,
University of Florence

General Info

MEDTECH Accreditation The event EMT28048-40th Vicenza Course from 14/06/2022 to 16/06/2022 in Vicenza, Italy, is compliant with the MedTech Europe Code of Ethical Business Practice.

ECM

The course is accredited by the Italian Ministry of Health (ECM) through Continuous Medical Education program (Provider n. 1257 - Event 1257-350024 Ed.1, 1257-350033 Ed.1, 1257-350053 Ed.1, - 8 ECM credits | Event n. 1257-350060 Ed.1 - 3 ECM credits). To obtain the ECM credits the Italian attendant must participate in all of the Scientific Sessions.

UEMS/EACCME ACCREDITATION

The **40th Vicenza Course on AKI & CRRT - special edition, VICENZA, Italy, 14/06/2022-16/06/2022** has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **16** European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.” “Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of *AMA PRA Category 1 Credits™*. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities. “Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

VERY IMPORTANT

In order to obtain ECM credits (Italian only) or CME credits it is necessary to pass through the scan control at the entrance of Room Tiziano, Room Giotto and Room Canova. If your presence is not detected during every single day and in every room, the credits will not be assigned

Bus Schedule
