15.00 - 17.30 - ROOM CANOVA

VICC - Vicenza Convention Centre
Vicenza, Italy

WORKSHOP

BASICS OF MULTIORGAN ULTRASOUND EVALUATION IN ACUTE KIDNEY INJURY

The workshop will be held in a three-station room with a portable ultrasound machine. A hands-on model is proposed in which each student will be able to perform the scan under the supervision of a teacher. Participants will be divided into 3 groups of 10 people who will rotate through each station (40 minutes per station and 10 minutes hands-on for each participant).

15.00 – 15.30: Introductory Lecture: basics of lung ultrasound, assessment of venous congestion and focused cardiac ultrasound - *G. Romero-González*

15.30 – 17.30:

- Station 1: Lung ultrasound and venous congestion assessment - *J. Soler-Majoral*
- Station 2: Focused Cardiac Ultrasound - *F. Ferrari*
- Station 3: Integration of lung ultrasound scanning, venous congestion assessment and FoCUS - *G. Romero-González and F. Husain-Syed*
